

Odor Fix

Pureous™ Odor Fix is not a product you will ever smell – and this is what you need. Traditional odor products are filled with fragrances to mask or cover up odor, often making it smell worse. In most cases, these fragrances are harmful to the health of anyone breathing them. Pureous™ Odor Fix works differently.

Technology

Pureous™ Odor Fix is a revolutionary new product that works by use of Pureous™ powered technology that cleans on the molecular level. Unlike other odor products it attacks the source of the odors rendering them bio-unavailable making them go away and stay away forever.

Simplicity

This product is not like traditional odor products that are sprayed into the air to mask odor. Pureous™ Odor Fix must be sprayed or wiped onto the source of the odor such as the wall of a dumpster, the grass in a pet area or directly onto concrete floors and pads. Pureous™ Odor Fix attacks the source of the odor and eliminates it, without using harmful fragrances or other toxins, harsh chemicals, allergens or volatile organic compounds (VOCs).

Green & Safe

Pureous™ Products are environmental, animal and people friendly. They contain none of the toxins, harsh chemicals, fragrances, dyes, allergens, or volatile organic compounds (VOCs) found in many traditional cleaning and odor products. This product also removes toxins and harsh chemicals that can build up over time, improving indoor air quality and making the environment healthier every time you use Pureous™.

** This product is odorless and colorless.*

Pureous™ is Different

Most cleaning, remediation and odor products are worse than the problems they try to solve. Pureous™ Products are proven to be more effective than the competition, safer for the environment and healthier for people and animals. Using Pureous™ Products actively improves indoor air quality.

Unlike other cleaning, remediation and odor elimination products, Pureous™ patented and proprietary products are proven effective without exposing people to toxins, harsh chemicals, allergens or volatile organic compounds (VOCs).

Pureous™ uses a revolutionary technology that produces ZERO VOCs and has been proven to be more effective than the competition and safer for people, animals and the environment. This innovative technology is also cost-effective – allowing for better, more efficient cleaning that becomes easier and requires less of the product over time.

Pureous™ Products

- ZERO VOCs
- Improves Indoor Air Quality
- FREE from Toxins & Harsh Chemicals
- Rapidly Biodegradable
- Hypo-Allergenic & FREE from Dyes, Perfumes, Oils, Scents and Other Fragrances
- Non-Hazardous and can be Discharged into the Sanitary Sewer or Septic System
- Manufactured with Sustainable Resources in a Zero Discharge Facility
- Allow for better, more efficient cleaning that becomes easier and requires less product over time
